Convergence in Global Food Demand and Delivery | Request PDF Converging food demand is tested in two ways. First, the convergence of food expenditures among 18 high-income countries is examined from 1990 to 2004. Convergence is apparent in total expenditures, cereals, and meats, but not in other categories. Second, specific food-retailing and product-introduction patterns are examined for selected countries. Convergence in Global Food Demand and Delivery - PDF While past studies have examined convergence in food consumption patterns among high-income countries in Europe and North America, this study expands the analysis to cover middle-income countries and methods of food delivery. Consumer demand for various food attributes was also analyzed using label claims on new products introduced in high- and middle-income markets. Convergence in Global Food Demand and Delivery - USDA iv Convergence in Global Food Demand and Delivery / ERR-56 Economic Research Service/USDA Significant convergence in food expenditures for high-value.
